

With the city of Johor Bahru now economically turbo-charging ahead thanks to the Johor-Singapore Special Economic Zone (JS-SEZ), demand for properties in strategic locations, such as near the upcoming RTS Bukit Chagar station, has skyrocketed. Whether for own use or investment purposes, homebuyers recognise the tremendous possibility of increased mobility for goods, people and services across borders. While much of the new property supply competes on which has the shorter distance to Singapore, few developments offer the complete package of cross-border proximity and the unique Johor way of living.

Enter Maxim Global Bhd, the developer of The Address. With a gross development value (GDV) of RM1.7bil, the freehold serviced apartment development comprising three blocks, offers city convenience steeped in local charm. At the same time, it boasts modern features such as skyline serenity and panoramic views stretching from Johor to Singapore.

Connectivity meets heritage

Located in Taman Pelangi, one of Johor Bahru's most well-known residential neighbourhoods, residents of The Address enjoy a short commute of just 3km to the RTS Bukit Chagar station and only 3.2km to the CIQ and Causeway. The location also provides residents with easy access to key highways such as Tebrau Highway, Jalan Tun Razak and Skudai Highway. It also stands to benefit from a proposed Elevated Autonomous Rapid Transit (E-ART) station, planned to be integrated with the RTS.

While enhanced ease to the border checkpoints is guaranteed, few can rival The Address in the charm of its location. Taman Pelangi, as one of the most mature neighbourhoods in Johor Bahru, offers a living environment with true multi-racial diversity that is, at the same time, uniquely Johor.
